

YASH PATIL

Data Science | Machine Learning | Data & Growth Analytics

Kanjurmarg, Mumbai 400042 | +91-7058432515 | yashpatil1524@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Data & Growth Analyst with a Data Science degree (2026) and hands-on industry experience in SQL-based data analysis, machine learning, BI dashboards, and generative AI (RAG/LLM applications). Proven record of turning multi-source data into reports, dashboards, and strategies that drive measurable business decisions. Builder mindset: independently shipped an end-to-end RAG chatbot and ML-powered applications. Actively expanding into data engineering and MLOps (Airflow, dbt, Snowflake, PySpark).

TECHNICAL SKILLS

- **Languages & Tools:** Python (NumPy, Pandas, Matplotlib, Scikit-learn), R, SQL, MySQL
- **AI / ML:** Supervised & Unsupervised Learning, NLP, Time Series Forecasting, Model Evaluation & Tuning
- **Generative AI:** RAG (Retrieval-Augmented Generation), LangChain, ChromaDB, Gemini API, ChatGPT API, Prompt Engineering
- **Data Visualization:** Power BI, Tableau, MS Excel, Google Analytics, Streamlit
- **Databases & Big Data:** RDBMS, Oracle, Data Warehousing, AWS, Hadoop, Apache Spark
- **Marketing Analytics:** Meta Ads Manager, Google Ads, Meta Pixel, KPI Monitoring, A/B Testing, Workflow Automation (Zapier)
- **Currently Learning:** Advanced SQL, Apache Airflow, dbt, Snowflake/BigQuery, PySpark, MLOps (Docker, FastAPI)

PROFESSIONAL EXPERIENCE

Data and Growth Analyst | Heaven Property, Mumbai | 2025 – Present

- Collected and integrated data from multiple sources (CRM, marketing platforms, sales records) using SQL to build a unified view of business performance across 5 Mumbai micro-markets.
- Cleaned, transformed, and analyzed datasets to identify trends in lead quality, customer behavior, and market demand.
- Designed and delivered analytical reports and dashboards, translating raw data into clear, actionable insights for management and the marketing team.
- Leveraged data insights to develop targeted marketing plans and campaign strategies, directly supporting company growth objectives.
- Set up and optimized Meta Ads and Google Ads lead-generation campaigns; tracked KPIs (CPL, CTR, conversion rate) and recommended data-driven budget reallocation to improve ROI.
- Automated marketing workflows and reporting processes (Zapier, Meta Graph API), reducing manual effort and improving team efficiency.

Finance Analyst Intern | Axis Max Life Insurance, Ghatkopar | Apr 2025 – Jun 2025 (Hybrid)

- Analyzed financial statements and generated actionable insights to support strategic decision-making and regulatory compliance.
- Developed financial reports, forecasts, and budgets that improved planning accuracy by identifying cost-saving opportunities.
- Monitored Key Performance Indicators (KPIs) to assess business performance and flag deviations for senior management.

Data Science Intern | Prodigy Info Tech, Mumbai | May 2025 – Jun 2025 (Remote)

- Executed end-to-end data preprocessing, cleaning, and exploratory data analysis on real-world datasets.
- Built and evaluated supervised machine learning models using Python and Scikit-learn.
- Delivered project insights and dashboards using Python, MySQL, and Power BI to stakeholders.

PROJECTS

PropBot – RAG-Based Real Estate Market Intelligence Chatbot | 2025 – Present

- Built an end-to-end Retrieval-Augmented Generation (RAG) chatbot delivering Mumbai real estate market intelligence across the full Mumbai Metropolitan Region (6 zones).
- Implemented document ingestion, embeddings, and vector search using LangChain and ChromaDB, with hybrid retrieval for improved answer accuracy.
- Integrated Google Gemini LLM for context-grounded responses and deployed an interactive Streamlit interface for end users.

- Designed a tiered subscription model for real estate channel partners, translating the technical product into a monetizable offering.
- Tech Stack: Python, LangChain, ChromaDB, Streamlit, Gemini API | GitHub: github.com/Mrpatil15/RAG-Project

Intelligent Finance Tracker & Budget Management System | 2024 – 2025

- Developed a full-stack personal finance management application using Python (Flask/Streamlit) with a MySQL backend.
- Implemented ML-based expense categorization using NLP techniques to auto-classify transactions with ~90% accuracy.
- Built a predictive budgeting module using regression models to forecast monthly spending and savings potential.
- Integrated ChatGPT API for personalized financial advice; designed interactive dashboards in Matplotlib and Power BI.
- Tech Stack: Python, Streamlit, MySQL, Scikit-learn, Pandas, Power BI, ChatGPT API

Customer Review Sentiment Analysis | Dec 2024

- Built a TF-IDF + Naive Bayes NLP pipeline to classify customer reviews as positive/negative with 85% accuracy.
- Deployed a real-time Streamlit web application for instant sentiment predictions on user-input reviews.
- Tech Stack: Python, Scikit-learn, NLTK, Streamlit

EDUCATION

Bachelor of Data Science | University of Mumbai | 2023 – 2026

Higher Secondary Certificate (HSC) | Maharashtra State Board | 2021 – 2023

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- Data Science with SQL & Visualization
- AI & Machine Learning
- Big Data
- Data Warehousing

Achievements

- Finalist – India's Biggest Digital Marketing Competition (IIDE, Mumbai)
- Recipient – Vodafone Scholarship & Tablet (Govt. of Maharashtra)
- Runner-up – Stock Market Simulation, MCC

LANGUAGES

English (Proficient) • Hindi (Fluent) • Marathi (Native)
